

I am a listener of K-LOVE, heard in Albuquerque on 90.5 FM, and was recently made aware of this proceeding which, if passed, would allow Low Power FM (LPFM) to take priority over FM translator services in our area. My wife and I are both avid supporters of K-LOVE and enjoy listening to their daily programming. Our children (who we recently adopted) also listen to K-LOVE with us.

1. K-LOVE, via their local translator service, provide wholesome family music and entertainment.
 2. Other local stations in area have been unpredictable in the content they broadcast. Very little of the content is suitable for small children. Several times my wife and I have had to turn off the radio so that our children will not be exposed to vulgar language, advertisements for nightclubs, and adult content not suitable for children.
 3. There is only one other family oriented station which broadcasts in our area. Should MB Docket No. 04-233 pass the approval of the FCC we fear that our choices of radio stations to listen to will be severely limited. I am uncertain if any LPFM station will provide the same quality content that we enjoy each day.
 4. K-LOVE serves our local community by bringing a national (and sometimes world-wide) point of view as broadcast in their station content.
- Please contact me should you need additional information or clarification.

Sincerely,

Thomas E. Beeson
